**Dry
Fashion**®

About us

Dry Fashion Sportswear GmbH has over 40 years' experience in providing comfortable protection against the elements. Our products are made solely from premium, durable, tried and tested materials. Dry Fashion® was one of the first companies licenced by W. L. Gore to produce drysuits made completely from GoreTex®. This privilege confirmed our reputation for high product quality and manufacturing excellence. Great emphasis is also placed on a close co-operation with leading regatta sailors, kite surfers, canoeists and stand-up paddle boarders. For over 20 years we have provided drysuits to prominent German explorer Arved Fuchs for his expeditions across the globe. www.arved-fuchs.de/partner

This dialogue ensures that all our products are tried and tested under the harshest of conditions before new innovations are launched on the market. All of these factors guarantee high quality to the "Made in Germany" standard. Thanks to this reputation for excellence, our drysuits are today among the best-selling in Germany and Dry Fashion® is one of Europe's leading drysuit manufacturers. The DFX-3 System is the solution in sustainable textile manufacturing. Environmentally harmful substances are removed from the manufacturing process right from the very beginning. Not only do our finished products adhere to the highest global consumer protection requirements, but also provide consumers with the confidence that they are purchasing a sustainably manufactured product.

Our Service

We professionally repair Dry Fashion drysuits, as well as drysuits from most other brands. We replace neck, foot and arm seals as well as zips. We also insert front relief zips and a stitching and welding service is available. These repairs are normally carried out within two working days. Before you send in your drysuit for repair, please call us to discuss your repair needs and to arrange an appointment.

Hotline: +49 / 4101 / 41 249

Repairs (including those of other brands) can be made within 24 hours.

- Repair of drysuits
- Replacement of latex seals
- Replacement of neoprene seals
- Insertion of front relief zips
- Zip replacements
- Stitching and welding
